for their heating can get assistance of £300 and please visit the North Lincolnshire website for further information. Families who are having to deal with end of life support they can also get Council Tax assistance. Also, if people are having difficulty in buying school uniform, they can get assistance through Citizenship Advice and go through their local Hubs in their area for advice. The new Waste collections are working well and there are some areas struggling to get things in the correct bins. - The leader of the council has met the Anglian Water's Chief executive to deliver a six-point action plan after almost 40,000 residents across North Lincs were affected by a major loss of water supplies (more information available on North Lincs website). I managed to go and view the repair work that was being carried out by Anglian Water to repair the burst pipes down in Broughton Cars and the team worked as fast as they could so that the underwater reservoir could be replenished and water would soon flow. Bottled water was delivered by Anglian Water to vulnerable people, but some households water was stolen and then replaced by Anglian Water as soon as they could.

The following points were updated by the Clerk:

- Solar Panels – the Clerk is working with a member of NLC who is completing a form with EON to sort out the import and export. The Clerk will contact Fox as she is currently unable to get the device on her phone.
- Utilities - NLC has been in again this morning to the village hall to confirm some items, this has resulted in the following outcome.

Regarding the electric contracts, it turns out that we are still with NLC for the village hall electricity and this contract runs out next February/March.

The library one which I believe was thought to be the village hall MPAN was the one changed to YU in error.

BROUGHTON TOWN COUNCIL MINUTES

Looking at the prices we have been paying nearly double the amount of the NLC contract, although this is being recharged to NLC I believe we should be looking at getting the best prices for both meters. With this in mind Sonia will be getting quotes from utility aid at the beginning of February, and we can then compare with the NLC quote at that time and see what works out the best and then have them all under one contract.

- Cllr Senior will look into tagging on the outlook 365 used by the Village Hall in with the Council which will reduce the cost.
- Cllr Taylor added that she had managed to get an act for NYE at a cost of £400. This was agreed.

The war grave on the site to be marked with a wreath. Cllr Harness to provide the details and the Clerk will advertise on Facebook for any relatives so they can be advised of this.

The multi- agency day took place on 25/09 and saw 20+ vehicles pull in at the layby on the A18 with no tax and 1 speeding vehicle. Within Broughton there were no vehicles with no tax, all was in order and 3 HGV were pulled over in 8 hours.

Ian Robertson of NLC had finally received a response from the NLC Trading Standards department who stated that they will enforce weights of overloaded vehicles when they put them on a weighbridge but will not enforce with restrictions on roads.
